

Garbutt Fibre Optic Upgrade - Construction Notice

NETWORK

Part of Energy Queensland

September 2023

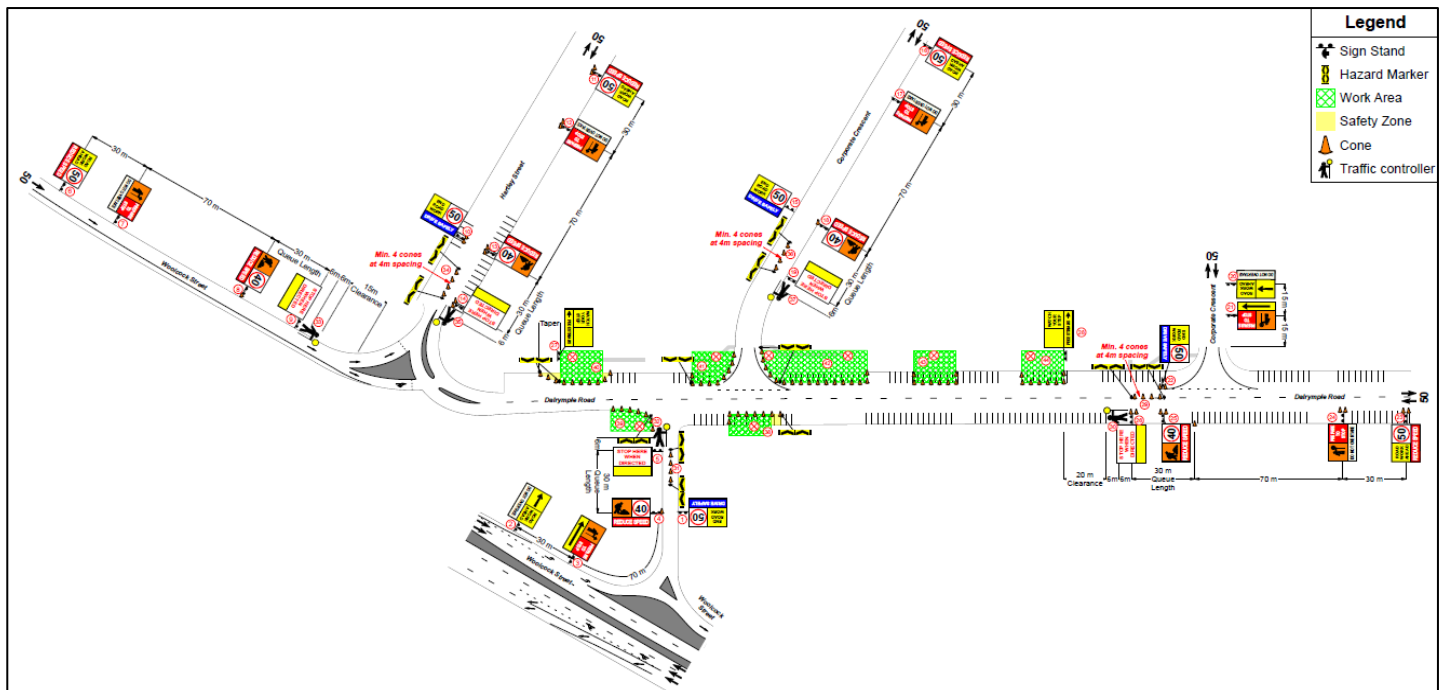

What we are doing

Commencing Monday 11th to Friday 15th September, we will be running new fibre optic cable along Dalrymple Road. There will be changed traffic conditions throughout the area during this time.

What to expect

During these works road users and nearby businesses can expect the following impacts:

- There will be an **increase in vehicular traffic** in the area, including heavy and utility vehicles, working in and around these sites.
- To manage traffic flow and safety, **traffic signage indicating changed conditions and speed limits** around the job site will be in place. Drivers may experience small delays during these works.
- For your safety and the safety of the workers on site, **please adhere to traffic signs and directions**.
- **Access to business driveways will remain open** for customer parking and deliveries.
- **Audible noise, dust and localised vibration from excavation activities** can be expected during these works.
- **Reversing beepers and flashing lights** are a safety requirement and will be always used during works.

We thank you for your patience during these works which we aim to complete safely and quickly. Please obey traffic signage and traffic controllers on site so that everyone gets home safely. Please note that all works are subject to weather and other site conditions and published timing may change.

Getting in touch with us

To keep up to date, provide feedback, or to **register for future updates via email or SMS**, scan the QR code or visit our project web page [Garbutt substation upgrade - Ergon Energy](#).
