

Garbutt Substation Upgrade Project - Construction Notice

August 2023

What we are doing

Commencing Tuesday, 22nd August to 24th August, we will be standing cables for the Garbutt substation. Road closures and detours will be in place throughout the Garbutt substation project area during this time.

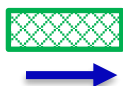

What to expect

During these works road users and nearby businesses can expect the following:

- The Woolcock Street Service Road behind the Ergon depot will be closed during work hours from Tuesday 22nd August to Thursday 24th August.
- Traffic on the connecting road will be one-way only – see yellow shaded area in map below.
- Traffic controllers will be in place to assist and direct road users and pedestrians safely around the work site.
- Traffic will be able to exit Woolcock Street eastbound to access Dalrymple Road under traffic control.
- There will be no turning onto the service road from Dalrymple Road to access Woolcock Street. To access Woolcock Street, traffic will be redirected via Hartley, Bolam and Langton Streets as per detour path on maps.

Map Legend

Work area – road closed

One lane closed – under traffic control

Traffic controller directed detour

Alternate route to Woolcock St

Please note that all works are subject to weather and other site conditions and published timing may change.
